ABOUT US

Introduction

At UCESCO–AFRICA, our work is built on three key pillars that drive sustainable impact:

1. Education and Talent Development – Equipping individuals with knowledge and skills to unlock their full potential.
2. Health, Sanitation, and Nutrition – Enhancing community well-being through accessible healthcare, proper sanitation, and adequate nutrition.
3. Micro Business and Agriculture – Empowering small enterprises and farmers to create Sustainable livelihoods and economic growth.

Through these pillars, we have transformed lives, strengthened communities, and paved the way for long-term development. The following visuals showcase the real impact of our work.

1. EDUCATION AND TALENT DEVELOPMENT

EDUCATION

We improve access to quality education by supporting school infrastructure, scholarships, and learning materials, reducing dropout rates and promoting literacy.

TALENT DEVELOPMENT

We empower the community through mentorship, arts, sports, and vocational training, helping them develop skills and confidence for future careers.

2. HEALTH, SANITATION, AND NUTRITION

We provide free medical camps, mental health support, and maternal health services, ensuring access to critical healthcare.

Our programs promote clean water, sanitation, and hygiene education, while nutrition initiatives combat malnutrition and food insecurity.

FREE MEDICAL CAMPS AND HEALTH CAMPAIGNS

SANITATION

Whether its beach clean ups or street clean ups, we are committed to the cause!!

3. MICRO BUSINESS AND AGRICULTURE

We empower communities through micro-business training, financial literacy, and small business funding, focusing on women and youth.

Our agriculture programs promote sustainable farming and agribusiness to enhance livelihoods and food security.
